Finding meaning in life, M Chin, 51(6):467

Good job, E Nathan, 51(6):467

Impact of promotion of occupational therapy campaign, KA Supple, 51(10):936

No more activity, N Levan, 51(5):397

Professional values: Diversity versus disintegration, MB Cole, 51(10):936

Providing school-based occupational therapy can be difficult, C Erzkus, 51(9):788

Spirituality issue provides needed voice, AP Henning, 51(10):936

Support for NBCOT certification renewal program, B Cox, LA Savino, S Imara, DM Cherry, R Jones, FE Gainer, et al., 51(5):396. [Author's response, JF Low, 51(5):396–397]

Topic of leadership among program directors deserves expanded study, SB Dimeo, 51(9):788-789

Unsupervised new graduates are not incompetent, JA Urech, 51(5):397

LOOKING BACK

"And teach agony to sing": An afternoon with Eleanor Clarke Slagle, RK Bing, 51(3):220-227

Occupational therapy's link to vocational reeducation, 1910– 1925, SA Gutman, 51(10):907–915

NATIONALLY SPEAKING

Acknowledging a spiritual dimension in occupational therapy practice, C Christiansen, 51(3):169–172

Elizabeth Baker Devereaux lectureship—Law and policy: Signposts of change, CA Metzler, 51(1):7–10

Occupational therapy in home health: Rapid changes need proactive planning, B Atchison, 51(6):406-409

Preparing occupational therapists for the year 2000: The impact of managed care on education and training, M Foto, 51(2):88–90

Presidential address—Wilma West: A true visionary, M Foto, 51(8):638-639

President's view on certification renewal, M Foto, 51(5):326–327
Spiritual depth of occupation: Making worlds and making lives,
SM Peloquin, 51(3):167–168

REVIEWER'S GUIDE, 51(7):629

Subject Index

A

ACTIVITIES OF DAILY LIVING

Consecutive series of adults with brain injury treated with a washing and dressing retraining program, 51(4):256-266

Educational participation of children with spinal cord injury, 51(7):553-561

Use of microwave ovens by elderly persons with disabilities, 51(9):739-747

ACTIVITIES OF DAILY LIVING EVALUATION

Equivalence reliability of the Functional Independence Measure for Children (WeeFIM®) administration methods, 51(1):35–41

Sensory profile: The performance of a national sample of children without disabilities, 51(1):25–34

ACE FACTORS

Comparison of the performance of younger and older adults on three versions of a puzzle reproduction task, 51(7):562–568

AGING

Understanding the potential of occupation: A qualitative exploration of seniors' perspectives on activity, 51(8):640-650

AMERICAN OCCUPATIONAL THERAPY ASSOCIATION Association, The

1997 awards and recognitions recipients, 51(10):925-926

AOTA Awards, 51(10):925-926

AOTF Awards, 51(10):926

Summary of Executive Board conference call, March 3, 1997, 51(10):927-928

Summary of Executive Board meeting, December 13-15, 1996, 51(7):620-621

Summary of Executive Board minutes, January 8-11, 1997, 51(10):926-927

Summary of Executive Board minutes, June 26-30, 1996, 51(7): 616-618

Summary of Executive Board minutes, October 11-13, 1996, 51(7):618-621

Awards

1997 awards and recognitions recipients, 51(10):925–926 Cordelia Myers Writer's Award, 51(5):338

Business Meeting, minutes

1997 annual business meeting, 51(10):902-904

Educational Programs

Listing of educational programs in occupational therapy, 51(10): 827-887

Official Documents

Association policies, 51(10):890-897

Cross-training position paper, 51(10):853-860

Official documents of the American Occupational Therapy Association, Inc., 51(10):905-906

Philosophy of education, 51(10):867

Physical agent modalities position paper, 51(10):870-871

Psychosocial core of occupational therapy position paper, 51(10): 868–869

Statement—Fundamental concepts of occupational therapy: Occupation, purposeful activity, and function, 51(10):864–866

Statement—Sensory integration evaluation and intervention in school-based occupational therapy, 51(10):861–863

Representative Assembly, minutes

1997 Representative Assembly summary of minutes, 51(10):898–901

ATTENTION DEFICIT DISORDER WITH HYPERACTIVITY

Clinical interpretation of "Factor Analysis on the Sensory Profile From a National Sample of Children Without Disabilities," 51(7):496–499

Factor analysis on the Sensory Profile from a national sample of children without disabilities, 51(7):490–495

ATTITUDE

Anticipating retirement: The formation of narratives concerning an occupational transition, 51(1):49-56

AUTISM

Tactile defensiveness and stereotyped behaviors, 51(2):91-95

B

BACK INIURIES

Development of a post-offer screening tool for patient support services, 51(10):834–843

BRAIN INJURIES

Consecutive series of adults with brain injury treated with a washing and dressing retraining program, 51(4):256-266

CEREBROVASCULAR DISORDERS

Mechanisms for adult-onset apraxia and developmental dyspraxia: An examination and comparison of error patterns, 51(5):339–346

Off-road driving evaluations for persons with cerebral injury: A factor analytic study of predriver and simulator testing, 51(5): 352–359

CHILD CARE

Role perceptions of mothers with young children: The impact of a child's disability, 51(8):651–661

CLINICAL COMPETENCE

Therapists' consistency in following their treatment plans for sensory integrative and perceptual-motor therapy, 51(2):104-112

COGNITIVE REHABILITATION

Case Report—Positive talk training in an adult with traumatic brain injury, 51(9):780–783

COMPETENCE

Competency beliefs and occupational role behavior among adolescents: Explication of the personal causation construct, 51(4): 267–276

OTR-COTA collaboration in home health: Roles and supervisory issues, 51(6):446-452

COMPUTERS (GENERAL)

Brief or New—Developing a computer-based expert system for pediatric prosthetic training: A pilot project, 51(1):70–73

CONTRACTURE

Use of low-load prolonged stretch devices in rehabilitation programs in the Pacific Northwest, 51(7):538-543

COOKING AIDS

Use of microwave ovens by elderly persons with disabilities, 51(9): 739–747

COPING

Circumventing burnout in AIDS care, 51(9):759-766

Model of functional deficits associated with hallucinations, 51(1): 57-63

Religious orientation and pain management, 51(3):215-219

COST CONTROL

Brief or New—Positioners for wheelchairs in long-term-care facilities, 51(10):921–924

CULTURAL CHARACTERISTICS (SOCIOLOGY)

Relationship between pretheoretical assumptions and clinical reasoning, 51(5):328-338

CURRICULUM

Student perceptions of a problem-based learning course, 51(7): 589-596

Teaching diagnostic reasoning: Using a classroom-as-clinic methodology with videotapes, 51(5):360–368

D

DEXTERITY FUNCTIONS

Brief or New—Manual dexterity of South African children growing in contrasting socioeconomic conditions, 51(4):303–306

DOCUMENTATION

Documenting progress in home care, 51(6):436-445

DRIVER TRAINING FOR THE HANDICAPPED

Off-road driving evaluations for persons with cerebral injury: A factor analytic study of predriver and simulator testing, 51(5): 352–359

DRIVER TRAINING SIMULATOR

Off-road driving evaluations for persons with cerebral injury: A factor analytic study of predriver and simulator testing, 51(5): 352–359

DYSTONIA

Case Report—Biofeedback for writer's cramp, 51(7):605-607

EDUCATION

Brief or New—Investigation of a tutor evaluation scale for formative purposes in a problem-based learning curriculum, 51(2): 140–143

Evaluating patient motivation in physical disabilities practice settings, 51(5):347-351

Skill acquisition and competency testing for physical agent modality use, 51(8):681–685

Teaching diagnostic reasoning: Using a classroom-as-clinic methodology with videotapes, 51(5):360–368

EDUCATION, CONTINUING

Pilot study of the theoretical and technical competence and appropriate education for the use of nine physical agent modalities in occupational therapy practice, 51(9):767–774

EDUCATION, OCCUPATIONAL THERAPY

Brief or New—Prerequisites for academic occupational therapy assistant programs, 51(5):385-387

Student perceptions of a problem-based learning course, 51(7): 589-596

Use of service learning in client environments to enhance ethical reasoning in students, 51(10):844-852

EDUCATIONAL OBJECTIVES

Model of the nature of family-therapist relationships: Implications for education, 51(7):597-603

EMPATHY

Circumventing burnout in AIDS care, 51(9):759-766

ENVIRONMENT

Case Report—Performance context and its role in treatment planning, 51(6):453-457

Clinical interpretation of "Effects of Object Characteristics on Female Grasp Patterns," 51(7):489

Effects of object characteristics on female grasp patterns, 51(7): 481-487

Evaluation of daily living tasks: The home care advantage, 51(6): 410-422

ENVIRONMENT, CONTROLLED

Use of environmental control units by occupational therapists in spinal cord injury and disease services, 51(1):42-48

ENVIRONMENTAL MODIFICATION

Brief or New-Latex sensitivity in children with spina bifida: Implications for occupational therapy practitioners, 51(7): 608-611

ETHICS, OCCUPATIONAL THERAPY

Moral tensions and obligations of occupational therapy practitioners providing home care, 51(6):430-435

EVALUATION

Equivalence reliability of the Functional Independence Measure for Children (WeeFIM®) administration methods, 51(1):35–41

EVALUATION PROCESS, OCCUPATIONAL THERAPY

Case Report—Performance context and its role in treatment planning, 51(6):453–457

Comparison of the performance of children with and without autism on the Sensory Profile, 51(7):530-537

Comparison of the performance of younger and older adults on three versions of a puzzle reproduction task, 51(7):562-568

Evaluation of daily living tasks: The home care advantage, 51(6): 410-422

Interest Checklist: A factor analysis, 51(10):815-823

Interrater reliability of the technology team assessment process, 51(4):297-302

F

FACULTY, OCCUPATIONAL THERAPY

Leadership qualities of occupational therapy department program directors and the organizational health of their departments, 51(5):369-377

FIELDWORK EDUCATION, OCCUPATIONAL THERAPY

Clinical interpretation of "Understanding Professional Behavior: Experiences of Occupational Therapy Students in Mental Health Settings," 51(8):693–695

Description of fieldwork in the home care setting, 51(6):423-429

Understanding professional behavior: Experiences of occupational therapy students in mental health settings, 51(8):686-692

G

GROSS AND FINE MOTOR SKILLS

Clinical interpretation of "In-Hand Manipulation in Young Children: Translation Movements," 51(9):729–732

In-hand manipulation in young children: Rotation of an object in the fingers, 51(7):544-552

In-hand manipulation in young children: Translation movements, 51(9):719–728

H

HAND

Case Report—Outcomes of upper-extremity tendon transfers and functional electrical stimulation in an adolescent with C-5 tetraplegia, 51(4):307–312

HAND FUNCTIONS

Brief or New—Manual dexterity of South African children growing in contrasting socioeconomic conditions, 51(4):303–306

Clinical interpretation of "Effects of Object Characteristics on Female Grasp Patterns," 51(7):489

Effects of object characteristics on female grasp patterns, 51(7): 481-487

HANDWRITING

Case Report-Biofeedback for writer's cramp, 51(7):605-607

HEAD INJURIES

Off-road driving evaluations for persons with cerebral injury: A factor analytic study of predriver and simulator testing, 51(5): 352–359

HEALTH PROMOTION

Brief or New-Ergonomics in health care, 51(8):701-703

HISTORY OF OCCUPATIONAL THERAPY

Looking Back—"And teach agony to sing": An afternoon with Eleanor Clarke Slagle, 51(3):220–227

HOLISTIC HEALTH

Occupational adaptation intervention with patients with cerebrovascular accident: A clinical study, 51(7):523–529

HOME CARE SERVICES

Evaluation of daily living tasks: The home care advantage, 51(6): 410-422

HOME HEALTH OCCUPATIONAL THERAPY

Description of fieldwork in the home care setting, 51(6):423-429

Documenting progress in home care, 51(6):436-445

Moral tensions and obligations of occupational therapy practitioners providing home care, 51(6):430-435

HUMAN ACTIVITIES AND OCCUPATIONS

Effect of added-purpose and meaningful occupation on motor learning, 51(7):508–515

Why the profession of occupational therapy will flourish in the 21st century, 1996 Eleanor Clarke Slagle Lecture, 51(1):11–24

HUMAN ENGINEERING

Brief or New-Ergonomics in health care, 51(8):701-703

HUMAN ENGINEERING (TECHNOLOGY)

Development of a post-offer screening tool for patient support services, 51(10):834–843

1

INDEPENDENT LIVING SKILLS (HUMAN ACTIVITIES)

Occupational adaptation intervention with patients with cere-

brovascular accident: A clinical study, 51(7):523-529

INDUSTRIAL THERAPY

Comparison of the test–retest reliability of the Work Box™ using three administrative methods, 51(7):516–522

INFANT

Clinical interpretation of "The Efficacy of an Early Prevention Program Facilitated by Occupational Therapists: A Follow-up Study," 51(4):252–255

Efficacy of an early prevention program facilitated by occupational therapists: A follow-up study, 51(4):247-251

INFANT, HIGH RISK

Effects of a neonatal positioner on scapular rotation, 51(5):378-384

INFANT, LOW BIRTH WEIGHT

Effects of a neonatal positioner on scapular rotation, 51(5):378-384

INJURED WORKER

Case Report—On-site job evaluation performed via activity analysis, 51(2):144–153

Case Report—Work-related post-traumatic stress disorder: Use of exposure therapy in work-simulation activities, 51(8):696–700

INTERESTS

Interest Checklist: A factor analysis, 51(10):815-823

INTERNAL-EXTERNAL CONTROL

Religious orientation and pain management, 51(3):215-219

INTERPERSONAL RELATIONS

Case Report—Positive talk training in an adult with traumatic brain injury, 51(9):780–783

INTERVENTION PROCESS, OCCUPATIONAL THERAPY

Impact of the classroom environment on defining function in school-based practice, 51(1):64–69

J

JURISPRUDENCE (SOCIOLOGY)

Giving a deposition: Some helpful tips for the occupational therapy practitioner, 51(9):754–758

L

LEADERSHIP

Leadership qualities of occupational therapy department program directors and the organizational health of their departments, 51(5):369–377

LEARNING DISORDERS

Mechanisms for adult-onset apraxia and developmental dyspraxia: An examination and comparison of error patterns, 51(5):339–346

M

MALPRACTICE

Overview of professional liability in occupational therapy, 51(8): 671-680

MANAGED CARE PROGRAMS

Multiskilling: A survey of occupational therapy practitioners' attitudes, 51(9):748–753

Occupational therapy practice: Focusing on occupational performance, 51(4):277–288

MEASUREMENT SCALES

Equivalence reliability of the Functional Independence Measure for Children (WeeFIM®) administration methods, 51(1): 35–41

MEDICAL RECORDS

Giving a deposition: Some helpful tips for the occupational therapy practitioner, 51(9):754–758

MEDICARE

Documenting progress in home care, 51(6):436-445

MENTAL DISORDERS

Model of functional deficits associated with hallucinations, 51(1): 57-63

MENTAL RETARDATION

Tactile defensiveness and stereotyped behaviors, 51(2):91-95

METHODS, OCCUPATIONAL THERAPY

Educational techniques used in occupational therapy treatment of cumulative trauma disorders of the elbow, wrist, and hand, 51(2):113–118

Therapists' consistency in following their treatment plans for sensory integrative and perceptual-motor therapy, 51(2):104–112

MODALITIES, OCCUPATIONAL THERAPY

Therapists' consistency in following their treatment plans for sensory integrative and perceptual-motor therapy, 51(2):104–112

MODELS, OCCUPATIONAL THERAPY

Competency beliefs and occupational role behavior among adolescents: Explication of the personal causation construct, 51(4): 267–276

Description of fieldwork in the home care setting, 51(6):423-429

Why the profession of occupational therapy will flourish in the 21st century, 1996 Eleanor Clarke Slagle Lecture, 51(1):11–24

MORALS

Use of service learning in client environments to enhance ethical reasoning in students, 51(10):844–852

MOTHER-CHILD RELATIONS

Clinical interpretation of "The Efficacy of an Early Prevention Program Facilitated by Occupational Therapists: A Follow-up Study," 51(4):252–255

Efficacy of an early prevention program facilitated by occupational therapists: A follow-up study, 51(4):247-251

MOTOR SKILLS

Effect of added-purpose and meaningful occupation on motor learning, 51(7):508-515

N

NURSING HOMES

Geriatric occupational therapy: The uncertain ideology of longterm care, 51(2):132–139

C

OCCUPATIONAL SCIENCE

Jewish spirituality through actions in time: Daily occupations of young Orthodox Jewish couples in Los Angeles, 51(3):199–206

OCCUPATIONAL THERAPY (PROFESSION OF)

Understanding the potential of occupation: A qualitative exploration of seniors' perspectives on activity, 51(8):640–650

OCCUPATIONAL THERAPY SERVICES

Brief or New—Positioners for wheelchairs in long-term-care facilities, 51(10):921–924

OCCUPATIONAL THERAPY (TREATMENT)

Case Report—Performance context and its role in treatment planning, 51(6):453–457

Model of functional deficits associated with hallucinations, 51(1):57-63

Prenatal cocaine exposure and mother-infant interaction: Implications for occupational therapy intervention, 51(2):119-131

Use of low-load prolonged stretch devices in rehabilitation programs in the Pacific Northwest, 51(7):538–543

ORGANIZATION AND ADMINISTRATION

Multiskilling: A survey of occupational therapy practitioners' attitudes, 51(9):748–753

ORTHOTIC DEVICES

Use of low-load prolonged stretch devices in rehabilitation programs in the Pacific Northwest, 51(7):538-543

OUTCOME AND PROCESS ASSESSMENT (HEALTH CARE)

Brief or New-Outcome measurement in home health, 51(6):

458-460

Planning process in occupational therapy: Perceptions of adult rehabilitation patients, 51(7):576-583

Prediction of academic and clinical performance of occupational therapy students in an entry-level master's program, 51(9): 775–779

P

PAIN, CHRONIC

Case Report—Work-related post-traumatic stress disorder: Use of exposure therapy in work-simulation activities, 51(8):696–700

PATIENT CARE PLANNING

Planning process in occupational therapy: Perceptions of adult rehabilitation patients, 51(7):576–583

PATIENT COMPLIANCE

Prediction of academic and clinical performance of occupational therapy students in an entry-level master's program, 51(9): 775–779

PATIENT DISCHARGE

Occupational adaptation intervention with patients with cerebrovascular accident: A clinical study, 51(7):523–529

Understanding the transition to community living after discharge from an acute care hospital: An exploratory study, 51(2):96–103

PATIENT EDUCATION

Educational techniques used in occupational therapy treatment of cumulative trauma disorders of the elbow, wrist, and hand, 51(2):113–118

PEDIATRICS

Prenatal cocaine exposure and mother-infant interaction: Implications for occupational therapy intervention, 51(2):119-131

Therapists' perceptions of pediatric occupational therapy interventions in self-care, 51(4):289-296

PERCEPTION

Comparison of the performance of younger and older adults on three versions of a puzzle reproduction task, 51(7):562–568

Mechanisms for adult-onset apraxia and developmental dyspraxia: An examination and comparison of error patterns, 51(5):339–346

PHILOSOPHY

Occupation as spiritual activity, 51(3):181-185

PHILOSOPHY, OCCUPATIONAL THERAPY

Therapists' perceptions of pediatric occupational therapy interventions in self-care, 51(4):289–296

PHYSICAL DISABILITIES, OCCUPATIONAL THERAPY

Pilot study of the theoretical and technical competence and appropriate education for the use of nine physical agent modalities in occupational therapy practice, 51(9):767–774

Skill acquisition and competency testing for physical agent modality use, 51(8):681–685

Understanding the transition to community living after discharge from an acute care hospital: An exploratory study, 51(2):96–103

PHYSICAL RESTRAINT

Forced use of the upper extremity in cerebral palsy: A single-case design, 51(10):824-833

PLANNING PROCESS, OCCUPATIONAL THERAPY

"Doing" in mental health practice: Therapists' beliefs about why it works, 51(8):662–670

PLAY AND PLAYTHINGS (THERAPEUTIC)

Clinical interpretation of "Therapist-Child Interaction in the Middle Minutes of Sensory Integration Treatment," 51(10): 806-807

Symbolic play language during sensory integration treatment, 51(10):808-814

Therapist-child interaction in the middle minutes of sensory inte-

gration treatment, 51(10):799-805

POSITIONING EQUIPMENT, THERAPEUTIC

Brief or New—Positioners for wheelchairs in long-term-care facilities, 51(10):921–924

POSTURE

Effects of a neonatal positioner on scapular rotation, 51(5):378-384

POVERTY (SOCIOECONOMIC FACTORS)

Brief or New—Manual dexterity of South African children growing in contrasting socioeconomic conditions, 51(4):303–306

PRECAUTIONS

Brief or New—Latex sensitivity in children with spina bifida: Implications for occupational therapy practitioners, 51(7): 608–611

PREVENTIVE HEALTH SERVICES (COMMUNITY)

Clinical interpretation of "The Efficacy of an Early Prevention Program Facilitated by Occupational Therapists: A Follow-up Study," 51(4):252-255

Efficacy of an early prevention program facilitated by occupational therapists: A follow-up study, 51(4):247-251

PREVENTIVE HEALTH SERVICES (FACILITIES)

Development of a post-offer screening tool for patient support services, 51(10):834–843

PROFESSIONAL COMPETENCE

Copernican revolution in clinical ethics: Engagement versus disengagement, 51(3):186–190

PROFESSIONAL-FAMILY RELATIONS

Model of the nature of family-therapist relationships: Implications for education, 51(7):597-603

PROFESSIONAL-PATIENT RELATIONS

Clinical interpretation of "Therapist-Child Interaction in the Middle Minutes of Sensory Integration Treatment," 51(10): 806-807

Clinical interpretation of "Understanding Professional Behavior: Experiences of Occupational Therapy Students in Mental Health Settings," 51(8):693–695

Copernican revolution in clinical ethics: Engagement versus disengagement, 51(3):186–190

Religious orientation and pain management, 51(3):215-219

Symbolic play language during sensory integration treatment, 51(10):808-814

Therapist-child interaction in the middle minutes of sensory integration treatment, 51(10):799-805

Understanding professional behavior: Experiences of occupational therapy students in mental health settings, 51(8):686-692

PROFESSIONAL PRACTICE

Brief or New—Identifying best practice in the occupational therapy assistive technology evaluation: An analysis of three focus groups, 51(10):916–920

Evaluating patient motivation in physical disabilities practice settings, 51(5):347-351

Giving a deposition: Some helpful tips for the occupational therapy practitioner, 51(9):754–758

OTR-COTA collaboration in home health: Roles and supervisory issues, 51(6):446-452

Overview of professional liability in occupational therapy, 51(8): 671-680

PSYCHOSOCIAL ASPECTS OF ILLNESS

Brief or New—Including hope in occupational therapy practice: A pilot study, 51(3):228–234

PUBLISHING

Academic integration of occupational therapy faculty: A survey, 51(7):584–588

PURPOSEFUL ACTIVITIES

Interest checklist: A factor analysis, 51(10):815-823

Occupational therapists' beliefs and practices with regard to spirituality and therapy, 51(3):173-180

Q

QUALITATIVE METHOD

Anticipating retirement: The formation of narratives concerning an occupational transition, 51(1):49-56

Helping clients develop hopes for the future, 51(3):191-198

R

RAPPORT

Clinical interpretation of "Therapist-Child Interaction in the Middle Minutes of Sensory Integration Treatment," 51(10):806– 807

Symbolic play language during sensory integration treatment, 51(10):808-814

Therapist-child interaction in the middle minutes of sensory integration treatment, 51(10):799-805

RECONSTRUCTION AIDES (WORLD WAR I)

Looking Back—Occupational therapy's link to vocational reeducation, 1910–1925, 51(10):907–915

REHABILITATION

Consecutive series of adults with brain injury treated with a washing and dressing retraining program, 51(4):256-266

Educational participation of children with spinal cord injury, 51(7):553-561

Forced use of the upper extremity in cerebral palsy: A single-case design, 51(10):824–833

Geriatric occupational therapy: The uncertain ideology of longterm care, 51(2):132–139

Occupational therapists' beliefs and practices with regard to spirituality and therapy, 51(3):173-180

Occupational therapy practice: Focusing on occupational performance, 51(4):277-288

RELIABILITY OF TESTS

Interrater reliability of the technology team assessment process, 51(4):297-302

Test of Sensory Functions in Infants: Test-retest reliability for infants with developmental delays, 51(9):733-738

RESEARCH

Student perceptions of a problem-based learning course, 51(7): 589-596

ROLE

Copernican revolution in clinical ethics: Engagement versus disengagement, 51(3):186–190

Impact of the classroom environment on defining function in school-based practice, 51(1):64-69

ROLE EXPECTATION

Geriatric occupational therapy: The uncertain ideology of longterm care, 51(2):132–139

ROLE, OCCUPATIONAL

Role perceptions of mothers with young children: The impact of a child's disability, 51(8):651–661

RUBBER

Brief or New-Latex sensitivity in children with spina bifida: Implications for occupational therapy practitioners, 51(7): 608-611

3

SCHOOL ADMISSION CRITERIA

Brief or New—Prerequisites for academic occupational therapy assistant programs, 51(5):385–387

Prediction of academic and clinical performance of occupational therapy students in an entry-level master's program, 51(9): 775-779

SCHOOLS, OCCUPATIONAL THERAPY

Leadership qualities of occupational therapy department program directors and the organizational health of their departments, 51(5):369–377

Prediction of academic and clinical performance of occupational therapy students in an entry-level master's program, 51(9): 775-779

SELF CARE

Therapists' perceptions of pediatric occupational therapy interventions in self-care, 51(4):289–296

SELF CONCEPT

Occupational meanings and spirituality: The quest for sobriety, 51(3):207-214

SELF-HELP DEVICES

Brief or New—Identifying best practice in the occupational therapy assistive technology evaluation: An analysis of three focus groups, 51(10):916–920

Educational participation of children with spinal cord injury, 51(7):553-561

Interrater reliability of the technology team assessment process, 51(4):297-302

Use of environmental control units by occupational therapists in spinal cord injury and disease services, 51(1):42-48

Use of microwave ovens by elderly persons with disabilities, 51(9): 739–747

SELF STIMULATION

Tactile defensiveness and stereotyped behaviors, 51(2):91-95

SENSATION

Sensory profile: The performance of a national sample of children without disabilities, 51(1):25-34

SENSORIMOTOR DYSFUNCTION

Test of Sensory Functions in Infants: Test-retest reliability for infants with developmental delays, 51(9):733-738

SENSORY INTEGRATION

Clinical interpretation of "Factor Analysis on the Sensory Profile From a National Sample of Children Without Disabilities," 51(7):496–499

Factor analysis on the Sensory Profile from a national sample of children without disabilities, 51(7):490–495

Sensory Profile: The performance of a national sample of children without disabilities, 51(1):25-34

SENSORY INTEGRATION OCCUPATIONAL THERAPY

Sensory processing in the postinstitutionalized child, 51(7): 500-507

SENSORY INTEGRATIVE DYSFUNCTION

Comparison of the performance of children with and without autism on the Sensory Profile, 51(7):530–537

Tactile defensiveness and stereotyped behaviors, 51(2):91-95

SENSORY REGISTRATION

Clinical interpretation of "Factor Analysis on the Sensory Profile From a National Sample of Children Without Disabilities," 51(7):496–499

Factor analysis on the Sensory Profile from a national sample of children without disabilities, 51(7):490–495

SOCIAL ADJUSTMENT

Case Report—Positive talk training in an adult with traumatic brain injury, 51(9):780–783

SOCIALIZATION

Clinical interpretation of "Understanding Professional Behavior: Experiences of Occupational Therapy Students in Mental Health Settings," 51(8):693–695

Understanding professional behavior: Experiences of occupational therapy students in mental health settings, 51(8):686–692

SPINAL CORD INIURIES

Case Report—Outcomes of upper-extremity tendon transfers and functional electrical stimulation in an adolescent with C-5 tetraplegia, 51(4):307–312

Use of environmental control units by occupational therapists in spinal cord injury and disease services, 51(1):42-48

STRESS

Circumventing burnout in AIDS care, 51(9):759-766

STRESS, PSYCHOLOGICAL

Case Report—Work-related post-traumatic stress disorder: Use of exposure therapy in work-simulation activities, 51(8):696–700

STUDENTS

Impact of the classroom environment on defining function in school-based practice, 51(1):64-69

SUBSTANCE DEPENDENCE

Prenatal cocaine exposure and mother-infam interaction: Implications for occupational therapy intervention, 51(2):119-131

SUBSTANCE USE DISORDERS

Occupational meanings and spirituality: The quest for sobriety, 51(3):207-214

T

TASK PERFORMANCE AND ANALYSIS

Impact of the classroom environment on defining function in school-based practice, 51(1):64-69

Job analysis in occupational therapy: Stepping into the complex world of business and industry, 51(7):569-575

TEACHING

Academic integration of occupational therapy faculty: A survey, 51(7):584-588

TEACHING METHODS

Brief or New—Investigation of a tutor evaluation scale for formative purposes in a problem-based learning curriculum, 51(2): 140–143

THERAPEUTIC ACTIVITIES

"Doing" in mental health practice: Therapists' beliefs about why it works, 51(8):662–670

THERAPEUTICS

Case Report—Biofeedback for writer's cramp, 51(7):605-607

V

VALIDITY OF TESTS

Brief or New—Investigation of a tutor evaluation scale for formative purposes in a problem-based learning curriculum, 51(2): 140–143

W

WORK EVALUATION

Case Report—On-site job evaluation performed via activity analysis, 51(2):144–153

Comparison of the test–retest reliability of the Work Box[™] using three administrative methods, 51(7):516–522

WORK THERAPY

Job analysis in occupational therapy: Stepping into the complex world of business and industry, 51(7):569–575

WORKER FUNCTIONS

Job analysis in occupational therapy: Stepping into the complex world of business and industry, 51(7):569–575

WORK-RELATED OCCUPATIONAL THERAPY

Brief or New—Ergonomics in health care, 51(8):701-703

Case Report—Work-related post-traumatic stress disorder: Use of exposure therapy in work-simulation activities, 51(8):696–700
